

ATTILA NAGY

ABOUT ME

I first started programming for fun.

Besides creating programs for family and friends, I solved challenges at HackerRank as well, and soon I fell in love with the process. Software development has never been just a job for me, it's offered an engaging challenge to continually learn and improve my skills.

Seeking to join 4flow as a Java Junior Developer.

PROJECTS

You can check these projects on my portfolio: natesz.github.io

Endless Runner:

2D game where you have to avoid the endless obstacles and go for the high score.

I used: C# and Unity.

Calculator:

Desktop app written with Java and JavaFx.

Lotto:

Desktop app where you can simulate a lotto draw.

I used: Java and JavaFx.
