

# ATTILA NAGY

## Front-End Web Developer

### ABOUT ME

I'm passionate about learning the latest and greatest technologies and frameworks. Software development has never been just a job for me, it is a challenge to grow as a professional. I am looking for opportunities to learn and expand my technical skill set in a team-based atmosphere.

### SKILLS

HTML5 | CSS | JavaScript | React | Vue.js  
Docker | Git | Firebase | SQL | Java | AJAX

### PROJECTS

You can check these projects on my portfolio: [natesz.github.io](https://natesz.github.io)

#### MyPlaylist App:

University project for Front-End Web Development course. Used hooks, React router and Semantic-UI for styling. Got a good understanding for CRUD operations, Virtual DOM and Forms.

#### Burger-Maker App:

The project was a good experience where I learnt using Components, JSX, Events, Keys. For backend service I used Firebase.

#### Endless Runner:

2D game where you have to avoid the endless obstacles and go for the high score.  
Uses: C# and Unity.

#### Rock Paper Scissors:

Game from scratch uses JavaScript, HTML5, and CSS. No libraries or frameworks.

### EXPERIENCE

2019 aug -

#### Software Intern at GE Healthcare

- Gave presentation about React for the entire organization.
- Wrote test cases for automation.
- Worked in agile environment with experienced senior developers.
- Participated in weekly meetings to discuss and strategize future plans.
- Learned about deployment and containerization.

### EDUCATION

2018-

Eötvös Lorand University – computer science

### LANGUAGE

**English:** Intermediate

**Slovak:** Intermediate
